

# ICMACE 2018

Manila, Philippines, January 5-7, 2018  
<http://icmace.com/>

Assisted by

## The Second International Conference on Mechanical Automation and Control Engineering

Based on fundamental knowledge, analytical skills, practical training, and ethics in the areas of mechanical engineering, robotics, automation, energy engineering, and beyond, MACE concerned with the design and development of methods and equipment for the control and automation of mechanical systems and physical processes.

We are proud to bring together and provide a platform for interaction and exchanging research ideas among experts from various fields of Mechanical Automation and Control Engineering. The conference will be held in Manila, Philippines from January 5-7, 2018 and will be attended by reputed scientists, researchers, academicians, industrial professionals and postgraduate students globally.

### Options for Publication:

1. Registered and presented papers will be published into the conference proceedings, which will be included in the major database, Scopus, Ei compendex, google scholar, etc.
2. Registered and presented papers will be published by International Journal of Mechanical Engineering and Robotics Research (IJMERR | ISSN: 2278-0149). website: <http://ijmerr.com/>. Indexing: Index Copernicus, ProQuest, UDL, Google Scholar, Open J-Gate, Scopus (since 2016) etc.

### Call for Paper

The proposed conference solicits original, unpublished and novel papers for research publication and presentation in research track, and industry/application papers in application track. Articles describing novel ideas and applications in all areas of behavior engineering are of interest, including the following:

Automatic control and technology  
Linear, nonlinear and fuzzy systems and control  
Predictive, intelligent and servo control  
Electronics automation and electrical engineering  
Networked control systems  
Hybrid systems and control  
Stochastic systems control and remote supervisory control

Plc and micro-controllers  
Control theory and application  
Cybernetics  
Control system modeling  
Control theory and methodologies  
Process control and automatic control theory  
Simulation techniques and methodologies

### Important Dates

**15th Nov. 2017**-Submission of Abstract/Full Paper  
Before **25th Nov. 2017**-Notification of Acceptance  
Before **5th Dec. 2017**-Final Registration Deadline

### Submission Method

By Email: [mace\\_conf@163.com](mailto:mace_conf@163.com)  
By Easy Chair:  
<http://www.easychair.org/conferences/?conf=mace2018>

### Conference History

MACE 2017 | Jeju Island, Korea during March 29-31, 2017

### Venue

Hotel Jen Manila (Pending)  
(★★★★)  
Website: [www.hoteljen.com/manila](http://www.hoteljen.com/manila)  
Address: 3001 Roxas Boulevard, 1305 Pasay City, Metro Manila, Philippines

### Contact

Ms. Hedy Yongg  
Conference Secretary  
Email: [mace\\_conf@163.com](mailto:mace_conf@163.com)  
Tel: +86-130-1822-2220
